

Work on the paddocks

Over the last month a number of jobs have been done in and around the paddocks:

- The remaining large logs from the elm were removed, and the area around was cleared.
- The fence was rebuilt.
- Fallen sticks and branches from the line of beech trees were collected and burnt.
- Any broken fence rails around both paddocks were repaired or replaced.
- The paddocks had their first cut.

Tennis court moss prevention treatment

The tennis court contractor, Pavescave, came recently to do the routine Spring moss prevention treatment on the court, in accordance with the agreed maintenance programme. The representative said that the court continued to look good. This is thanks to the five volunteers who carry out the weekly checks and maintenance. If you would like to help with maintenance, please contact Mark at No 32 mark.lowry@lowryfamily.co.uk

Riverside seat rebuilt

If you have walked to the end of the riverside path in the last few months you will have noticed that the log seat has been missing. It was washed away when the river was very high in January. Luckily, Peter went down there soon afterwards (in his wellies) and managed to rescue and safely store the floating parts of the seat, which fortunately had not gone very far. He has now put the seat back together again.

Edging the roadside footpath

Peter has recently been tidying up the edges of the tarmac footpath at the entrance to the village from the A64, so it looks similar to the new path which was constructed last year. Here are some before and after photos.

Power cut

The prolonged power cut we all experienced on Saturday night (24th April) was caused by the failure of an underground cable on the far side of the A64, between the road and footpath, just up from Crambeck Bridge. The electrical contractors who located and repaired the fault suspected the cable had been damaged during the road works last year.

Minutes of CMCL meetings

The company's management team meet every couple of months. Minutes of the meetings are kept on the village website www.crambeckvillage.com and all shareholders can look at them there. The section on the website is confidential, so is password protected. If you are a shareholder and would like the password, please email us at info@crambeckvillage.com.

Annual General Meeting

We are hoping to hold an AGM later this year, probably in September, provided the Covid19 situation is satisfactory. The date of the meeting, the directors' report and indicative accounts will be published in June. All being well, we will go back to a June AGM in.2022.

Best wishes
